## VERNAL.

DISTRICT COURT SESSION.

Judge Booth on the Bench Politics—Lady Breaks Her Arm.

Special Correspondence.  
Vernal, Uintah County, March 21.—Judge Booth and party, consisting of District Attorney S. A. King and stenographer "Mont" Roberts, also attorneys L. R. Rhodes and E. A. Walton, arrived in Vernal Sunday evening and court was formally opened Monday morning. The calendar is not a very heavy one and it is quite probable that the term will only last this week.

The first case called was the now notorious Whipple-Johnson case which has dragged its weary length through numerous court terms, originating during Judge Dusenberry's first term in this county. Judge Rhodes challenged the jury panel on the grounds that the jurors were not all summoned and those who did appear were summoned by Sheriff Preece, who is co-defendant in the case. Judge Booth overruled the challenge and the jurors were accepted as to their statutory qualifications.

Edward McKee, grand larceny, and James W. Bedda, rape, were arraigned and each took the statutory time to plead.

Tuesday was occupied nearly all day with the examination of one witness, Whipple, in the before-mentioned Whipple-Johnson suit. This case is likely to occupy several days.

## DISCARDED.

The Old Methods of Treating Piles and Rectal Diseases Supplanted by the Pyramid Pile Cure.

The old methods of treating piles by ligature, by the knife or by the cruel methods of dilatation, besides causing intense pain and frequently collapse and death, are now known to be but mere makeshifts as far as a cure is concerned. The liver is responsible for nearly every case of piles and the mistake has been made of treating piles as a purely local disease. Such is not the case, however, and the success of the new treatment known as the Pyramid Pile Cure has demonstrated it.

The Pyramid Pile Cure is not a salve or ointment, but a suppository which is applied at night and absorbed into the sensitive rectal membrane and acts both as a local and a constitutional treatment, and in cases of many years' standing this treatment has been effective.

Thousands of pile sufferers bear witness to the inestimable value of the Pyramid and even those who have undergone surgical operations without a cure have been happily surprised by results from a few weeks' treatment with the Pyramid.

The relief from pain is so immediate that patients sometimes imagine that the Pyramid contains opiates or cocaine because the relief is so instantaneous, but the Pyramid Pile Cure is guaranteed absolutely free from any opiate or mineral poison whatever.

The relief is the result of the astringent properties of the remedy which causes the little tumors and congested blood vessels to contract and a normal circulation is established.

The Pyramid Pile Cure is strictly scientific, both in its composition and in its therapeutic action and the best feature of it is that it is perfectly safe and harmless. No ill effects ever result from its use, but only positive benefit.

A singular fact, in view of the large number of patent medicines before the public is that the Pyramid is the only pile cure of national reputation. It is the only pile cure popular enough and meritorious enough to be found in every drug store in the United States. It sells at 50 cents a package.

was opened. About 250 people assembled in the social hall and listened to some stirring addresses, the principal speaker being S. A. King. There will be another meeting this evening in Ashleigh precinct.

Hon. William O'Neill is home again. He has been out to Deer Lodge, Nev., in the mining business, and more recently has been campaigning in Carbon and Emery for the Democratic party.

The excavation for the Stake tabernacle is completed. It was found necessary to sink six feet instead of three as designed, in order to find firm ground for the footing stones. This will require about forty cords more stone than was estimated.
